**Intro:** Oh Hunger

Oh hunger, oh hunger, oh hunger

This land is full with hunger

Guinea, Liberia, Somalia and Ghana and all over Africa

Let fight against hunger so our life will get better.

**Chorus:** so many troubles, so many grumble in hunger land

Living in the hunger

Always poor title, corruption people in hunger land

Living in the hunger land

Poverty rolling, illiteracy roaming in hunger land

Living in the hunger

Innocent lives going, disease are flowing in hunger land

Living in the hunger land

Seem not to be stop at all

Hear the voices around me, struggling suffering I can see

World hunger!! Is getting stronger

Let fight it together

I am going round the world, to kick the hunger ball

Together we can go, Hunger must be no

I have put on my shoe

Tell me what you can do

Together we can go, hunger must be no

See the children are crying, people are suffering

Just because there is no food to offering

Let come together brothers and sisters and fight against hunger

So our life we get better
